## SANSWISS INNOVATES WITH ITS FULLY MODULAR DIVERA RANGE

Our DIVERA shower doors and enclosures are designed with quality and adaptability in mind. These enclosures combine comfort and simplicity and meet the most common needs. Fully modular and highly functional, the DIVERA range is based on the latest SanSwiss innovation.

In a corner, in a niche or against a wall, the DIVERA walls bring elegance to your bathroom and adapt to all configurations. Its ergonomic handles make it easy to hold for maximum comfort. Its Aquaperle treatment facilitates maintenance.

## Characteristics

- Securit Glas 6 mm
- Integrated Aquaperle anti-stain treatment
- Standard height 2000 mm

- 2 finishes available
- Interior & exterior opening
- Magnetic closing
- Doors and fixed wall reversible
- Optimised passage width
- Tailor-made possible
- Slant cut or straight
- Available in Matt black (06) - Black Line

## MODULARITY

### Fixed in-line wall D22FF

Available in a range of sizes from 200 to 600 mm, the complementary in-line fixed wall D22FF can be adapted to all the doors in the range for a customised configuration. Clip-on and reversible, this wall allows for large width solutions.

### 90° Fixed Walls D22F1 & D22F3

The D22F1 90° fixed wall fits all the doors in the range for corner mounting. Available in several sizes, from 700 to 1400 mm, it can also be used for 3 walk-in solutions. The complementary 90° fixed wall D22F3 can be combined with the fixed wall D22F1 for U-shaped assemblies or tailor-made Walk-In solutions.

## DESIGN & TECHNICAL DETAILS

**Swivel door handle**  
For an optimal grip.

**Sliding door handle**  
Refined and ergonomic

**Sealing**  
The included, discreet threshold profile for better sealing.

**Stabilisation**  
The integrated corner reinforcement, the length of which is adapted to the size of the fixed wall, provides optimum stability.

**Detachable system**  
The detachable system of the sliding element facilitates the maintenance of the wall. Its small threshold bar allows easy access and optimal sealing.

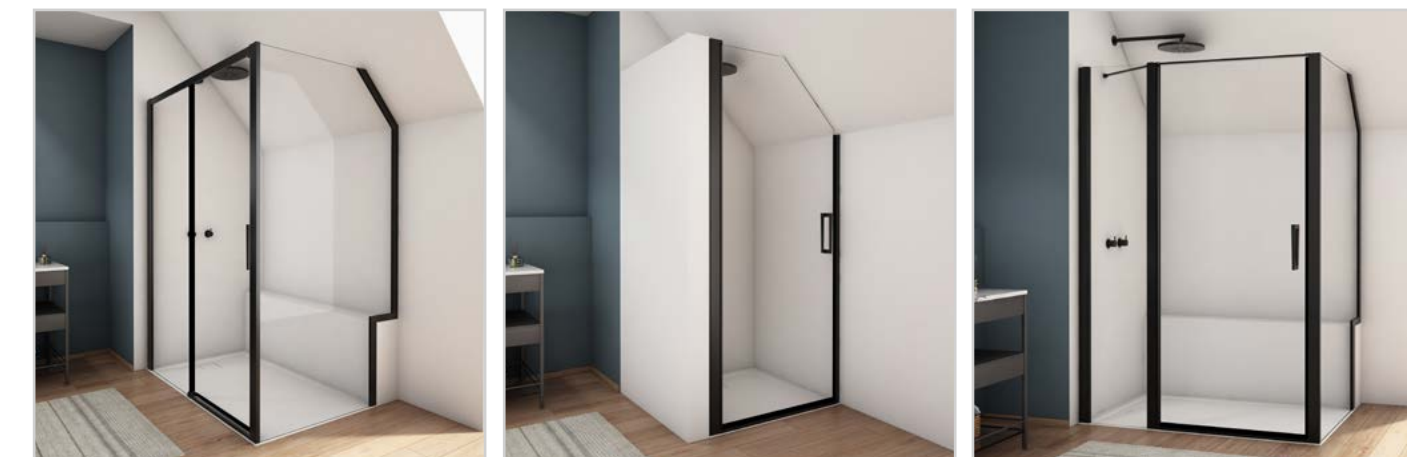

**Comfortable installation of the wall compensation profile**  
Allows 60 mm of adjustment in the niche. No drilling required. Only one locking screw after adjustment.

## SPECIAL SOLUTIONS

### Shortened fixed wall

### Slanted or straight cuts

### U-shaped mounting

Door on the side
